Process & Decision Documentation

Week 2 Side Quest

Name: Nat Nguyen

Primary responsibility for this work: Gave the blob the emotion of panic. Making it look frantic, jumping around swiftly, and very shaky.

Goal of Work Session

Briefly describe what you were trying to accomplish during this phase of the assignment.

- Experimenting with colour, radius, speed, gravity, and more, I used the emotion of panic to illustrate my blob.

GenAI Documentation

No GenAI used for this task.

- fixed blob — n25nguyen • last month
- fixed files — n25nguyen • last month
- Added Process and Documentation — n25nguyen • 2 months ago
- Made the blob panicked — n25nguyen • 2 months ago
- Change blob to pentagon and wobble ... — n25nguyen • 2 months ago
- Changed radius, text size, and bg color — n25nguyen • 2 months ago
- Example 1 Code — n25nguyen • 2 months ago
- Initial commit — n25nguyen • 2 months ago

Made the blob panicked

played around with radius, colour, gravity, tspeed, etc,. to give the blob a panicked emotion
